

Dr. Prabuddha K Kundu

**Executive Director,
Premas Biotech**

Prabuddha has studied from IIT-Bombay. His specialization is primarily in the protein expression and scale up of biomolecules and MAbs. He has over 16 years of experience in various companies, and positions, including establishment of production facilities, for biologicals, vaccines and blood derived products. He has worked for companies such as Bio-Rad, Ranbaxy, etc.

In his most recent role, as an entrepreneur, he has co-founded Premas Biotech 6 years ago, along with the team. The investment has come for a group of UK based angel investors. At Premas, he has managed mutli-group specialties, including manufacturing, marketing and business development, with a keen understanding of the bio-market in India and USA. He is the Executive Director and heads the Services business.

Apart from his other business interests, he is most interested in process efficiency enhancement, and has been very actively involved and implemented "Lean Management" at Premas Biotech, or the "Toyota production Process" one of the first company in India for the biology sector, along with electronic information acquisition and documentation. This provides entire bandwidth of traceability, information management and process deliveries.
