

Dr. Urmish Chudgar

**Managing Director,
Intas Biopharmaceuticals Limited**

Dr. Urmish Chudgar is the Managing Director of Intas Biopharmaceuticals Limited, an biopharmaceutical entity of Intas group. Intas Group derives its competitive edge from successful and strategic moves it has made in the areas of Manufacturing, R&D, Biotechnology, Clinical Research and Global Operations.

Dr. Chudgar is a post graduate in Medicine from K.M. School of PG Medicine, Ahmedabad. Diplomate of American boards of Hematology and Oncology. He is a member of various professional organizations in India and abroad. He is also practicing as Clinical hematologist and faculty at NHL Municipal Medical College, Ahmedabad. He is passionate about cutting edge technology of Stem Cell Therapy, Biotechnology and Public health.

He also is a Managing Director of Celestial Biologicals. Understanding the crying need for India to have its own facilities for fractionation of blood, he has embarked on the initiative to set up one-of-its-kind of plasma fractionation facility in Asia. Through Celestial Biologicals, he has collaborated with chain of blood banks across the country and is working towards introducing plasma fractionation technology.

He is also the Founder Chairman of Prathama Blood Center., which facilitates and caters to requirements of safe blood components of assured quality, at all times, to every needy patient.
